

Challenge 7 part B solution

Report from Indian intelligence concerning overseas operatives in Uttar Pradesh

Sources in Uttar Pradesh reporting heightened activity among foreign nationals. Suspected Nazi infiltration of regional power generation network and suspicious activity at the hydroelectric plant.

UK and American Embassy traffic increased shortly after the arrival of suspected agents known as Charlie and Harry and we placed them both under round the clock surveillance. We have reason to believe they intend to disrupt the Nazi operation.

Our agents arranged to supply Harry with a large quantity of RDX explosives and the shipment is being closely monitored by Indian Special Forces. The RDX is not fitted with detonators so is largely inert.

The American physicist Trevor Salinen, who disappeared recently, is believed to be being held by the cult of the Koh I Noor for reasons currently unknown to us. Special Forces are standing by to effect a rescue once this has been confirmed.

We are monitoring the traffic between C and H in the hope of clarifying the situation at the power plant.

Report Ends.
