

### *Challenge 1 part A solution*

Harry, the report below is causing a lot of concern in UK intelligence and Government circles. Whitehall asked me to bring you in on this. Can you get over by next week? Seems like your sort of problem. Hope you can make it, this is turning into something big. Anyway here is the intelligence report from our agents.

We have been getting reports of enemy activity along Essex coast under cover of last weeks flooding. One reported sighting of a submarine close inshore on Essex marshes.

Several Nazi sympathisers in East Anglia known to have slipped surveillance during the confusion with some possible sightings later in London.

Indian Intelligence reporting considerable activity in Bombay among ex-pat Fascists with links to the UK Nazi movement, in particular to one of the agents now missing.

By the way, we intercepted the attached message, which shouldnt pose too much of a challenge to decrypt! Charlie
